

Ruan is one of the nation's largest private freight companies. Our interests and contacts extend into nearly every industry, and we count among our loyal customers some of the largest, most respected organizations in the world.

KEY TO OUR SUCCESS.

Our professional drivers are more than just a part of this success; they are essential to it.

Ruan drivers are primarily assigned to a single customer, which puts them in the perfect position to gain an understanding of our customers and their supply chains.

FAMILY-FRIENDLY ROUTES.

Working with a single customer provides predictable schedules that keep our professional drivers close to home. Over 60% of our drivers are home every night, and nearly all of our drivers are home multiple times per week. That makes for very satisfied drivers — and is one of the reasons our driver retention rate is three times the industry average.

Drive the red trucks.

Call today to learn about opportunities in your area and find out how our predictable schedules can keep you close to home.

BE A PART OF AMERICA'S FINEST FLEET.

»» A tradition of safety.

Ruan was the first carrier in the industry to introduce a formal safety program. And, safety training is as important to us today as it was when it was introduced in the mid-1940s.

Drivers receive in-depth training. Safety awards are given for accident-free years. And, our drivers are provided with well-maintained, late model equipment.

»» National reach. Local focus.

Ruan's national network of more than 160 locations offers many benefits to our drivers. Our long history and continued growth provide security and peace of mind. Plus, each location is managed by local managers who focus on your needs and the needs of the local fleet.

A great team.

With headquarters in Des Moines, Iowa, Ruan has more than 4,800 employees who operate, service, and coordinate 3,300 power units and 5,500 trailers across the country.
