

RUAN

DEDICATION THAT MOVES YOUR BUSINESS

FLEET LEASING FROM RUAN: THE ROAD TO GOOD BUSINESS.

Leasing vehicles from Ruan Auto Leasing, especially in a challenging economy, makes more sense than ever.

Whether you're in the market for executive automobiles, trucks or cargo vans — leasing is good for business, helping to reduce your risk, improving working capital and credit flow, and providing welcome tax relief.

A STIMULUS FOR THE REST OF US.

Tax relief is immediate when you choose leasing over purchasing. Instead of waiting for potential gains or losses on the sale of the equipment, you and your tax professionals can promptly claim the deductions offered for leased vehicles. Plus, unlike purchased vehicles, the deduction will not decline due to vehicle depreciation.

FREE YOUR CAPITAL. FREE YOUR CREDIT.

Ownership requires that money be invested in depreciable assets rather than appreciable assets. Leasing frees up lines of credit and provides off balance sheet financing as the lessee is only required to footnote leases.

NEW VEHICLES ARE SAFER VEHICLES.

Leasing also allows for a timely rotation of vehicles — trading aging vehicles for those which include the most up-to-date safety features. This eliminates the risk of obsolete equipment and may even help reduce the cost of your insurance.

LEASING HAS NEVER BEEN EASIER.

Ruan's service is hassle-free. You'll never want to lease a vehicle in any other way. We have customers who have been leasing vehicles through us for over forty years.

That's because we spend the time to negotiate, purchase, title, license, lease and even dispose of the vehicle once you've moved into your next one. We'll never steer you into an inappropriate lease. And whether you lease one vehicle or a thousand, you'll receive the same personal care and attention to detail that is the hallmark of the Ruan Companies.

CUSTOMIZED SOLUTIONS STANDARD.

Our leasing programs are designed to meet your specific needs. We will never try to fit you into a standard "plan." Instead, our Ruan Auto Leasing Specialist will work with you to arrive at a plan that makes the most sense for your business, with flexible lease terms and competitive rates.

ANY MAKE OR MODEL.

We are not obligated to align with, or be partial toward, any dealer or manufacturer. We'll lease you any vehicle you need. Whether that's a luxury car, an SUV, a cargo van, or a truck.

A PERSONAL TOUCH.

Ruan can manage all the details of your leasing contract over the phone, but if you prefer a more human interaction, contact a Ruan Auto Leasing Specialist at **515-245-2683** and we would be glad to meet with you one on one. To find out more information, please visit us at **ruan.com**.
