RUAN

Ruan's Integrated Supply Chain Solutions are driven by people, transformed by process, and enhanced by platform, allowing you to focus on your core competencies. Ruan has expertise in providing supply chain solutions to every industry. And everyone at Ruan is dedicated to your business and to your cargo.

Driven by People

Ruan assigns dedicated resources to support each client including an account manager and execution team who are responsible for:

- + Managing daily business processes
- + Controlling operational expectations
- + Partnership development and collaboration
- + Scheduling, tendering, and monitoring shipments
- + Key performance indicators and business reviews

Ruan's expert teams provide seamless operational start-up and TMS/WMS implementation. Our driver retention rate is four times the national average. Customers have one point of contact and one consolidated bill for all services, and our safety professionals monitor compliance and regulations daily.

Transformed by Process

Ruan's business intelligence team provides ongoing analysis that identifies opportunities for continuous improvement and cost savings. We conduct annual customer satisfaction surveys to assess our performance and define accountability. Ruan's carrier development program includes stringent qualification standards and safety monitoring.
